

Dear Potential User:

One work comp claim could pay for your Load-And-Pack several times over . . .

Our refuse vehicle is ideal for your parks and/or beach areas.

We can virtually eliminate your lifting work comp claims using our system of refuse collection.

Our system pays for itself in as little as 2½ years (depending on your current methods) or immediately with one excessive work comp claim.

A partial list of our users is included for your perusal. I think you'll agree that we are keeping some very fine company and once our customers have used our Load-And-Pack it is reordered time and time again. It really does save money.

One person can pick up 400+ containers in a normal working day – without ever leaving the cab – except to facilitate the 7 cubic yard box off-loading when it is full and then on-loading an empty box and continuing the route.

Our box compacts 4 to 1 thus holding 28 cubic yards of refuse before needing an empty box.

We encourage you to request a personal visit (if possible) from our Load-And-Pack sales personnel or request a DVD as soon as possible. You can also view the demo DVD on our site at www.broyhill.com.

Please review the enclosed material and let us know how you want us to proceed. E-mail craig@broyhill.com.

Sincerely,

Craig G. Broyhill
President
