TrailWater

the first and only trailer for inflatable watercraft

Broyhill  
when only perfection will do

# 6' x 8' Kit

TrailWater

FACTORY BOLTED ASSEMBLY

Detailed assembly instructions / factory support (customer supplies plywood flooring and finishing on kit model)

**Round Top Rear Fender Edges**  
Easier loading of watercraft (no rough edges)

**Bed Inside Area**  
4' wide x 8' long x 10" deep (on deluxe model)

**12" x 8' Steel Fender Platforms**  
28" high with 8 strap loops

# 7' x 10' Deluxe

TrailWater

FACTORY WELDED ASSEMBLY

**Dual Lid Box Mounted on Trailer Front**  
Lock your gear up without taking up your vehicle's space

**18" x 10' Steel Fender Platforms 28" High**  
Allows multiple or larger watercraft to be carried

**Spare Tire Kit**  
For that rare flat tire when you least expect it

**11 Strap Loops**  
Creates perfect tie down location even on the front tongue

**Black Chip Coating (front)**  
Protects your trailer from road debris and gravel

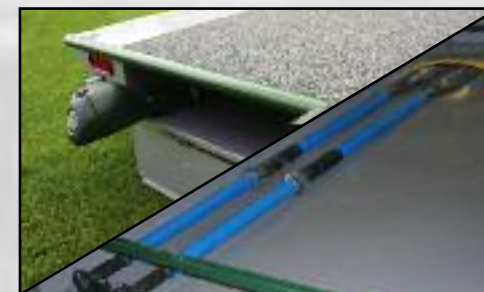

**2" Hitch, 4 Wire Lights**  
Universal attachment to most vehicles

**7' Folding Tongue**

**DOT Regulation**  
Trailer lights

**Winch / Roller**  
Assembly eases loading of larger watercraft

**Double Fly Rod Tubes - 9' 2" long**  
**Mounted Inside the 10" Lockable Tailgate**  
Tubes pull out on drawer glides for easy access, protecting your rods when assembled; move from one fishing hole to the next without breaking down your rods  
**Oar Lock Downs Keep Your Oars Secure**

**Parts for 8' TrailWater Kit**  
Easy assembly with factory support available

**LED Tail Lights**  
Brightest tail lights available

**8' Trailer Kit Assembled**  
(less plywood floor)

**Plywood Floor on 8' Model**  
(customer supplied)  
**Torsion Axle (heavy duty)**  
Trailer has 950 lb. carrying capacity with excellent shock absorption

**Ease of Towing**  
Even on the smallest of vehicles

**Multiple Lockable Storage Areas**  
Front access to rear storage area when customer orders or installs plywood and carpet top deck

**Torsion Axle (heavy duty)**  
Trailer has 1500 lb. carrying capacity with excellent shock absorption

**3-Part Paint Preparation**  
1) phos acid etch, 2) undercoat, 3) top coat retards rust with less sun (heat) absorption on gray color

**Welded Steel Construction** Strong steel unibody construction
